We deliver transformative construction and fabrication solutions that build Nigeria's future through indigenous innovation, proven expertise, and world-class project execution.

The background of the slide features a dark, abstract design with swirling patterns of red, yellow, blue, and green, creating a modern and dynamic feel.

Our vision is to be Nigeria's leading indigenous construction company, enhancing communities with world-class infrastructure and innovative engineering solutions.

"We are committed to delivering every solution on time and within budget – without compromising safety, quality, or performance."

About Us

Stanchions Nigeria Limited is a local construction and engineering company, specialising in civil infrastructure, road construction, and industrial fabrication services. We deliver integrated solutions across Nigeria's construction industry, serving both public and private sector clients with world-class engineering capabilities.

Established in 2006, we have earned recognition as a trusted partner for complex infrastructure projects. Our core strengths include road and civil construction, pipeline infrastructure, location preparation, and comprehensive logistics support. Through continuous investment in advanced construction technology and skilled Nigerian professionals, we provide cost-effective, value-driven solutions that exceed client expectations while contributing to Nigeria's infrastructure development.

Engineering, Procurement & Construction (EPC)

We deliver fully integrated EPC solutions that cover the entire project lifecycle, from design to commissioning; tailored to meet the highest standards.

Civil Construction

Our civil construction services encompass the full project lifecycle, including land preparation, earthworks, and structural construction, primarily for institutional and commercial projects like the University of Port Harcourt Teaching Hospital. We utilise advanced methodologies and stringent quality control to meet international safety, durability, and performance standards.

Location Preparation

We deliver fully integrated EPC solutions that cover the entire project lifecycle, from design to commissioning; tailored to meet the highest standards.

Road & Civil Construction

With our industrial background and proven technical capacity, we contribute to the success of large-scale road project operations, making road projects simpler and more efficient. We recognise that each road project is unique, that is why we keep innovating our approach with our world class team.

Fabrication

At Stanchions, we provide precision-engineered fabrication services, delivering scalable solutions tailored to meet the specific demands of the construction industry. Additionally, we offer expert roofing services to ensure your projects are completed with quality and durability.

Logistics & Management

At Stanchions we manage our own vehicles, forklifts, cranes, and equipment to maintain an efficient logistics system for handling and delivering supplies. Our fleet includes trucks, certified containers, and lifting equipment, along with small vehicles available for lease.

Material Handling & Storage

Secure and well-managed warehousing solutions for bulk and specialised equipment, complemented by reliable and efficient inventory control systems.

Project Logistics

Effective management of comprehensive transportation and freight solutions, including the heavy lifting of time-sensitive cargo.

Environmental, Social and Governance (ESG)

At Stanchions, sustainability and safety are core pillars of our operations. We are committed to creating long-term value for our stakeholders through responsible environmental stewardship, ethical governance, and rigorous health and safety standards for our workforce and communities.

Our ESG Commitment

Environmental Stewardship: We are dedicated to reducing our environmental footprint through sustainable practices, efficient resource management, and compliance with stringent environmental regulations.

Social Responsibility: We invest in local communities, focusing on capacity building, employee welfare, and fostering social inclusion through targeted initiatives.

Governance: We uphold the highest standards of integrity with a strong focus on transparent decision-making, ethical business practices, and rigorous regulatory compliance.

Clients & Partners

Stanchions collaborates with leading international and domestic oil & gas firms and Government organisations.

Our priority is to continue to foster long-term relationships based on trust, efficiency, and superior service delivery.

DR. NNAETO ORAZULIKE, O.O.N. FOUNDER & GROUP MANAGING DIRECTOR

Orazulike holds a Bachelor of Science in Accounting from the University of Nigeria and has completed the Owner/President Management (OPM) program at Harvard Business School. He is currently a board member of FATE Foundation and has previously served on the board of Fidelity Bank PLC. In 2015, he was awarded an honorary Doctor of Science degree by the University of Port Harcourt.

UWOJEYA DANIEL - CHIEF FINANCE OFFICER

Uwojeya Daniel is an experienced financial expert in corporate finance, risk management, and regulatory compliance. As a Fellow of ICAN and CITN, he ensures operational efficiency and sustainable growth at GENTEC through strategic financial oversight. His skills in financial planning, cost optimization, and investment strategy enhance the company's financial health and drive long-term profitability.
